MAIN CHANGES TO THE DREAMER FUN 2027

EVOLUTION OF THE CAMPER FIVE

The 5th registered forward-facing seat in the CAMPER FIVE has been updated. The gas tank is now at the rear of the vehicle to free up space for a fold-down forward-facing seat. This new version is easier to set up and more stable.

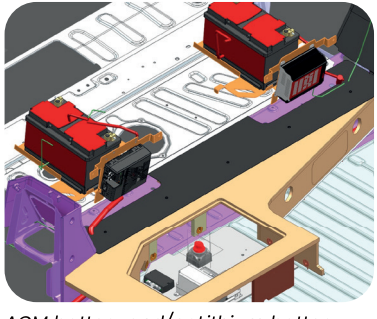
A FEW CHANGES IN THE 2027 COLLECTION

+ **Removal of the 20TH ANNIVERSARY PACK and discontinuation of the CELEBRATION upholstery.**
+ **FUN FINISH:** the shower curtain has been taken out to make way for the DUO'SPACE with swivelling partition (D43, D43 UP, D68, D68 UP, CAMPER FIVE and CAMPER SPORT) and the MODUL'SPACE® washroom (D55 and D55 UP).
+ **The 180 hp option has been discontinued** on the D43 UP model and is not available on the new D43 model.

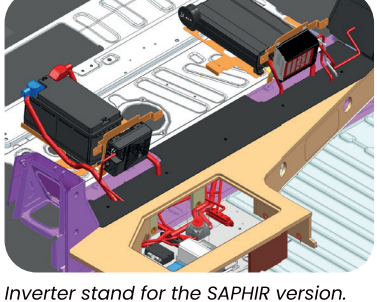
MAIN CHANGES TO THE DREAMER SELECT 2027

- **Discontinuation of the following models:**
  D43 UP SELECT, D62 SELECT, D68 UP SELECT, LIVING VAN SELECT.
- **Changes to the SAPHIR finish**
- **Changes to the CAMPER VAN XL SELECT:** availability of the option without drop-down bed on the CAMPER VAN XL SELECT model with SAPHIR finish.
- **"Transverse bed" layout:** replacement of the "double cylinder" gas tank with a 2.75 kg Campingaz cylinder.
- **Addition of the 160 hp engine** as an option for automatic transmission.
- **Changes to packs:** integration of certain elements of CONFORT + and SAFETY PLUS packs into the vehicle's standard specification.

POWER CHANGE



AGM battery and/or Lithium battery depending on the version



Inverter stand for the SAPHIR version.

+ **On the Saphir finish:** 1 x 150 Ah Lithium battery + 2000 W inverter as standard. It is not possible to have the option of a 2nd Lithium battery on campervans.
+ **Heating:** switch to TRUMA COMBI 4 DIESEL CP PLUS for all standard DREAMER Select models.
+ **Under-seat battery.**

CAMPERVANS FOR EVERY SEASON

OPTIMAL TEMPERATURE ALL YEAR ROUND

A roof insulation kit is available as an option for all our pop-up roof models.

- A high-performance kit providing effective insulation to the pop-up roof, to ensure optimum use of your vehicle throughout the year, even in demanding weather conditions.
- Associated with our XHP high-performance insulation and our fuel heating system, the roof canvas insulation kit considerably reinforces your vehicle's thermal and acoustic insulation.

PATENTS

Patented innovations designed to improve life on board

With Dreamer, some innovations go beyond classic design. Developed to improve space, comfort and ease of use, they embody the expertise of Dreamer by Rapido.

FOUR PATENTED INNOVATIONS, DESIGNED TO MAKE A DIFFERENCE TO YOUR EVERYDAY LIFE

1

The electric drop-down bed is a real space-saver for everyday life.

The bed unfolds electrically in an instant and only when you need it, freeing up living space during the trip.

Available on:
CAMPER VAN XL SELECT

2

The MODUL'SPACE® wardrobe, a versatile and ingenious washroom.

An exclusive solution combining a dressing area, shower and private space in a single, optimised area.

Available on:
D55, D55 UP
D55 SELECT, CAMPER VAN XL SELECT

3

The electric bench seat: from living room to bed in a flash.

Quick and easy conversion from a cosy living area to a comfortable sleeping space.

Available on:
CAP LAND SELECT

4

Innovation with a central bed and SLIDE TABLE configuration.

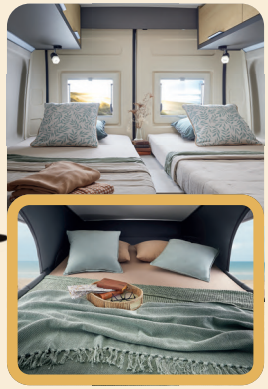
The true comfort of a motorhome in a campervan.

Available on:
D64 SELECT

**Configuration protected by a design registration and a patent application.*

NEW FUN FEATURES

2 NEW MODELS



D68 UP

+ Modular twin beds, with a pop-up roof for an additional sleeping space for 2 people

D43

+ A compact format and standard fittings, offering the perfect balance between agility and comfort

A FEW NEW FEATURES IN THE FUN RANGE:

- Availability of 120 hp engine on D43 and D43 UP models with manual transmission.
- **New pack: ADAPT PACK** available on the **FUN + finish** (pack details on page 11).

THE FUN RANGE HAS BEEN UPGRADED WITH THE NEW ESSENTIAL PACK

Dreamer unveils the **ESSENTIAL PACK** for the 2027 collection. Available on **D55** and **D55 UP** models, this pack offers you a fully-equipped, ready-to-go vehicle. Find the detail of the pack on page 15.

WEIGHTS RESTRICTIONS

Important information

Weight is a key consideration when choosing your recreational vehicle (motorhome or campervan), along with layout and design. **Each motorhome has a maximum weight that must not be exceeded when driving on the road**. Below, you can find some information to help you choose the right configuration, according to the weight restrictions, when selecting your new vehicle from our range.
That information is based on the definitions issued under Part 2 Technical Specifications, Section A, of the 2021/535 regulation, Annex XIII.

1. MTPLM

The Maximum Technically Permissible Laden Mass (MTPLM or M) is declared by the manufacturer and corresponds to the vehicle's maximum mass for driving (e.g. 3,500 kg or 4,400 kg). It includes the weight of the vehicle, occupants, fittings, and payload capacity.

Refer to the specifications to find those values.

2. MIRO

The Mass in Running Order (MIRO) includes the vehicle's frame, furniture, standard fittings as per the manufacturer's specifications, tanks filled to 90% of their capacity (fuel and liquid), and fixed driver's weight of 75 kg. The permitted tolerance is ±5%. It is recommended that you keep that tolerance in mind while configuring your vehicle and choosing optional fittings, in order to comply with the minimum payload requirement (see point 4 below).

WEIGHTS RESTRICTIONS

3. Number of passengers

The number of seats authorised for use while driving (excluding driver) is determined by the manufacturer upon delivery according to the vehicle type, chosen layout and resulting payload.

4. Payload

For motorhomes, European legislation requires a minimum payload equal to 10 kg multiplied by the total sum of the maximum number of passengers plus the driver plus the total length of the vehicle in metres.

For a 7-metre motorhome with 4 authorised seats (including the driver), the minimum payload would be 10 kg x (4+7) = 110 kg.

5. Weight of options

The masses defined by the manufacturer for the optional equipment are values determined by the model's configuration and constitute the maximum optional equipment mass that may be ordered. Those restrictions are intended to safeguard the remaining minimum payload for loading the vehicle (e.g. luggage, tableware, etc.).

If the total mass of the options exceeds the value set by the manufacturer, the manufacturer must reduce the number of authorised driving seats or remove the optional equipment.

Other accessories installed by the dealer or by yourself are not included in the original optional fittings; they need to be deducted from the specified payload and the manufacturer takes no responsibility for this.

**Maximum technically permissible laden mass of the combination, may vary according to the base vehicle specifications*

Some models presented in this catalogue may be shown with optional equipment. Non-contractual photos: stylistic elements, décor and accessories not included. Since part of DREAMER production is intended for export, the characteristics of the photographed models may vary from one country to another; for an exact definition of the models marketed, please consult your dealer. DREAMER reserves the right to make modifications to its models without notice. Despite the care taken in producing this catalogue, it cannot be deemed a binding document.
**In addition to the contractual 2-year warranty for your vehicle and the manufacturers' warranties on original accessories installed during assembly, you are entitled to an 8-year warranty covering furniture frames and watertightness when you have your vehicle moisture-checked annually during the 4 years after it is first registered. The warranty covering accessories fitted at the dealership is provided by the original manufacturers under their terms and conditions, through the dealership or fitter. The chassis warranty is provided by the chassis manufacturer. Cost of transport is borne by the customer. Motorhomes, campervans and vans are designed for leisure use. Under no circumstances are they intended to be used as a permanent home.*
